Breakout Activity: Blinking Experiment

All materials (presentation slides, Jupyter notebooks with code generating the plots and additional exercises) available on github: github.com/zuzannna/can-you-survive-this/

STEP 1: Introduce yourself to your neighbor (or two!)

STEP 2: Designate the experimenter and arm them with a time measuring device (phone / watch)

STEP 3: The experimenter measures how long each person within the group can keep their eyes open without blinking.

STEP 4: One of the participants switches with the experimenter and measures how long they can last.

STEP 5: Enter your group's results here: https://goo.gl/P4oX9q . Put down the name, number of seconds without blinking and whether a person was wearing glasses OR contacts OR none:

Name / pseudonym	Number of seconds without blinking	Wearing glasses / contacts / None
2	4	Contacts
3	5	Glasses
4	8	
5	10	N/A
5	12	N/A
6	4	Contacts
6	7	Glasses
7	9	N/A
